Summary

Final-year Electronics and Communication Engineering student with training in Full Stack Web Development, seeking an entry-level software developer role to apply my skills in building scalable web applications and contribute to organizational success.

Education

Bachelor of Technology(B.Tech) in Electronics and communication Engineering

08/2023 – 05/2027

Teegala Krishna Reddy Engineering College

- Studied core subjects like Digital Electronics, Communication Systems, Signals & System
- Gained knowledge in Embedded Systems and Microprocessors
- Completed Full Stack Development (FSD) training covering HTML, CSS, JavaScript, and backend technologies
- CGPA: 7.70

Skills

Web Development

- HTML
- CSS
- JavaScript

Programming

- Python

Soft Skills

- Team Work
- Time Management
- Communication

Certificates

ServiceNow Certified System Administrator

- Focused on configuring and maintaining the ServiceNow platform, including User Interface (UI), User Management, and Data Management.

Full Stack Development(EduNate Foundation)

- Developed end-to-end web applications using technologies such as [list your tech here, e.g., HTML, CSS, JavaScript, Node.js, and MongoDB].

Projects

Arm Processor Based Antenna Positioning

01/2026 – 03/2026

Automated antenna alignment using ARM microcontroller

- Designed and developed an embedded system using an ARM microcontroller for automatic antenna positioning.
- Improved signal strength by optimizing antenna orientation.
- Enhanced signal reception through precise alignment.

ASTRALERN - AI Powered Student Collaboration Platform

09/2025 – 02/2026

Collabrative Learning Ecosystem

- Developed an intelligent platform connecting students based on interests and learning styles.
- Implemented AI-driven study group matching and collaborative virtual study rooms.
- Designed personalized learning paths and progress tracking system using REST APIs.
